WELCOME

TO OUR NEW CATALOGUE

Eurobib direct

We are pleased to present our exciting new products.

We are presenting a broad range of products which can refresh and energize your space and keep your library fit.

Besides our Eurobib Direct catalogue and webshop range, we offer unique expertise in library layouts and interior design under our BCI and Schulz Speyer trademarks.

Contact us and follow our journey on our websites where you can keep up with our latest projects, trends, product news and tips.

TURBULENT TIMES
Due to the everchanging, and uncertain prices and availability of responsibly sourced materials, energy and transport, please ensure you check current prices online prior to ordering products from our printed catalogue.

KEEP AN EYE ON THESE SYMBOLS IN THE CATALOGUE

The environment symbol describes the products with reference to the materials, their properties, environmental conditions or any other relevant information that may be worth knowing.

FSC

The FSC® symbol is shown on the products, that are FSC-certified and originate from sustainable forestry.

Plus design

The Plus Design symbol shows that the product is made of laminated birch plywood with visible edges to create both a durable surface and a lasting construction. Perfect for the most demanding library environments!

Most of our furniture can be delivered in other colours. Do you have a special wish? Contact us for more options.

Melamine
E4011   Black/black frame
E4009   White/white frame

Remember that the castors on your trolley may need tightening after a certain period of use (approx. 6 months). We also recommend that you check the castor fittings once a year and tighten as necessary. Keep the tightening tool that is supplied with your book trolley handy. Spare castors are available in our webshop.

THE FIRST ENCOUNTER...

The first encounter (or the first impression for that matter) can be crucial. Whether we're talking about a fully-staffed, reduce-staffed, or unstaffed library, your visitors should not only feel welcome but also be able to get their bearings quickly.

Where can they get personal assistance or how can they help themselves? Questions that your visitors should be able to have answered when they step into the entrance zone.
Planning and designing entrance zones with the help of various interior design solutions may be the answer. Here, we present some options for taking good care of your visitors – right from the first encounter.

Let library users take responsibility and help themselves

Nowadays, most libraries have self-service stations for different purposes, without you having to provide assistance. These stations are usually located near entrances and exits to make it easier for both visitors and staff (in case assistance is needed).

Do you need help to get inspired?
We'll be happy to give you some advice!

AWARD WINNING FURNITURE ICON

E15139

E151391

Puzzle

Award winning furniture icon for children
Puzzle is just as much a range of furniture as a play tool designed for children and on their terms. The shape is just as simple as it is genius, where both the element and the construction form a table and stools.
Children come and go, look and search around, play individually or in a group or gather together to hear a story read aloud. Activities that demand as well as create space for them.

Size	Table: W900 x D900 x H460 mm Stool: Ø350 x H228 mm
Material	Veneered birch plywood
Design	Birgitte Borup and Carsten Becker for Eurobib Direct
Unit	1 table / 4 stools
Delivery	Flat-packed; assembly required

E15139

AWARD WINNING FURNITURE ICON

Puzzle has been part of a number of exhibitions internationally and has also won the prestigious Japanese G-mark Prize in the category Good Design Grand Prize and the Norwegian Design Prize Designers Saturday.

Puzzle and its puzzle-like qualities connected to the child's motoric development through play wins attention and has, among others, been purchased by Lego.

HABICAVE

Sustainable, acoustic cave designed and produced in Denmark. A simple but well-thought-out product for the modern library interior.

NEW!

HabiCave

Privacy and relaxation
HabiCave is a beautiful, sculptural and acoustic room in a room. A sensory modulating cave, where both children and adults can retire and enjoy a cozy, quiet room in the library. HabiCave also encourages fun and socializing or reading aloud. The simple and well-thought-out aesthetics appeal to the senses, and the acoustic material not only helps to reduce the noise level inside the cave, but also in the room.

The felt, that is available in many colours, is made of PET plastic collected from the world's oceans, and the seat is artificial leather, both materials which are very easy to clean.

60/30 CLASSIC

The 60/30 Classic shelving system is a standalone shelving system and is the culmination of years of experience and success. Its modular structure and width of bays ensures ideal room utilisation through relevant functions. The flexibility of the system paves the way for a rich variety of individual solutions.

60/30 Classic

60/30 Classic shelving is available as single-sided, double-sided, round and wall-mounted options; with end panels in different materials; shelves for various purposes; and a wide range of smart accessories which create unprecedented possibilities.

Nordic Ecolabel

All steel parts in our range meet the criteria for Ecolabel, Svanen. Sustainable, safe and environmentally friendly.

331-064

See all functions and accessories online

UNIFLEX

The Uniflex shelving system offers a wide range of possibilities in your library!
The standalone shelving system with square frame design and numerous shelves and functions allow for individual library design and is especially suited for use in high volume libraries as well as in public and school libraries.

Uniflex

The Uniflex shelving is available in two variations – single- and double-sided, both with the option of increasing the height of the bays (from standard 2250 mm up to 3675 mm in total). Shelves are available in both steel and wood and several functions can be added to create the right functionality for your library.

Certifications

Metal parts are lacquered according to DIN 50942 with a particularly resistant, environmentally friendly, stove-enamel powder coating. Most of the metal fittings are chrome-plated or galvanized and therefore have long-term corrosion protection. Wooden surfaces have an environmentally friendly lacquering or plastic coating.

Louise Hederström has been our "in-house designer" for many years now and has designed some of our most popular collections. You haven't missed them, have you?

Meet the designer online

HIGH FLEXIBILITY

> You can easily change a straight shelf to a sloping shelf, simply by placing the pins diagonally in the panel. The shelf is the same.

Sloping shelf (55°) with front edge

Straight shelf with back edge

Pre-drilled holes

Become your own urban planner

Build inspiring "urban spaces" with buildings of different heights and depths. Invite visitors on a walk around town along the building façades with inviting "display windows" full of books, magazines and much more! Ideal as focal points for all visitors.

The new multifunctional modules open up a wealth of possibilities. The modules are available in single- or double-sided versions and in three heights.

The lower heights help to create environments that are easy for both visitors and staff to navigate. Simple to rearrange the shelves and very easy to move around. User friendliness is in focus.

Memphis is made of wood from sustainable forestry

Customized

INFORM ROUND

The Inform Round shelving system offers dynamic change for your library or school environment while adding valuable display or book storage options and also helps to define creative or collaborative areas.

Inform Round

This simple and timeless system fits perfect with our Ratio line of shelving, as well as the Inform counter, table and search station. Together, they encapsulate the true meaning of flexibility. The modular construction provides the highest degree of functionality and versatility, while the various laminate and veneer options are highlighted by the acrylic accent panels.

The double-sided Inform Round shelving system is available in three heights with adjustable feet and in two heights with castors.

E1504	L, dark grey

E3840

Acoustic

The current library trend with big open spaces, straight parallel walls and glass surfaces creates unpleasant sound reflections. In these cases, it is important to "help" these surfaces in the best way possible to create a pleasant acoustic environment, by reducing disruption in areas where concentration and quiet contemplation are needed, in which the customers can stay both creative and focused.

BOOK CARE

I'm green
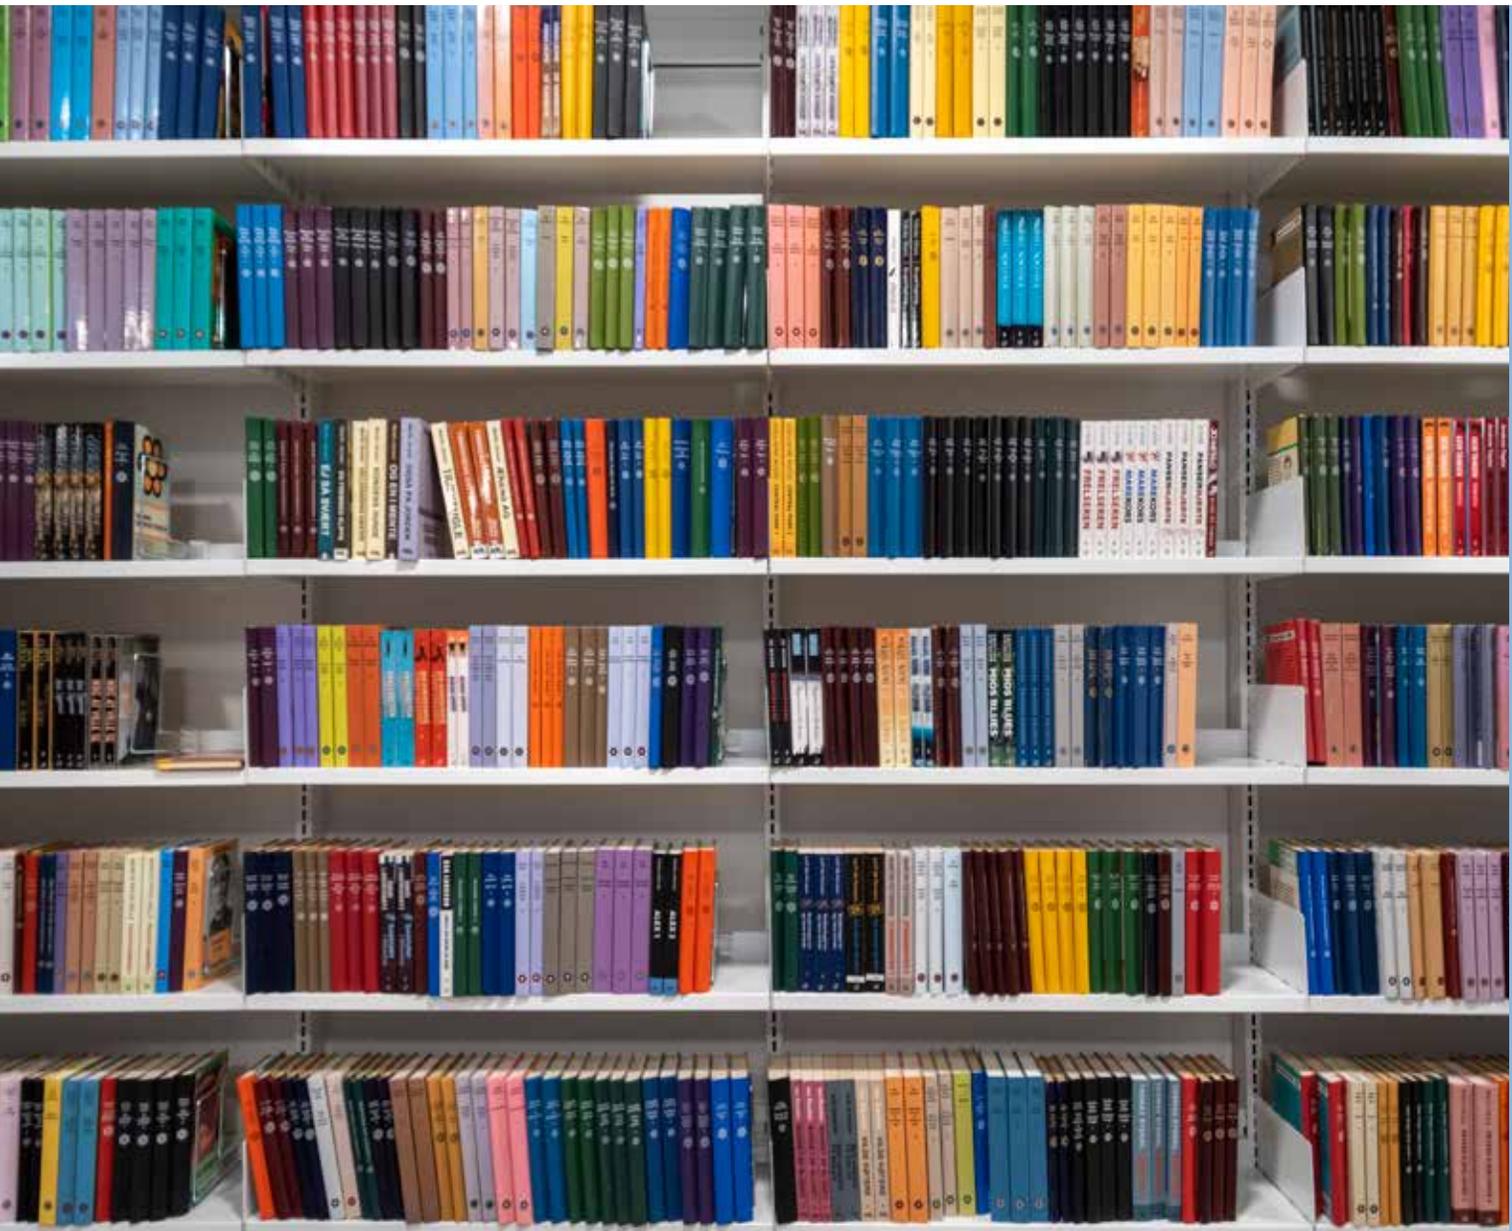

| Scotch Book Tape | Book Glue | Filmoplast T | Bio-Based Book Foil |

BOOK FOIL

Reinforce and protect books, covers and labels!
Here you will find our most popular book films which will extend the life time significantly and protect against
dirt, moisture and wear and tear for better hygiene.

75 % sugar cane

I'm green

Phthalate-free

Plastic properties & environmental impact

LDPE, Bio-based

Bio-polyethylene is vegetable based polyethylene made of ethanol, which becomes ethylene after a dehydration process. It can be manufactured from various raw materials e.g. sugar cane.

Environmental impact
One of the most important environmental benefits of bio-polyethylene is made of renewable ressources with no fosil origin used, and it "binds" approx. 2.15 tons of carbon dioxide per ton of green polyethylene produced. The carbon dioxide is absorbed by the sugar cane as it grows, minus carbon dioxide emitted by the production process. Plastic made from biomass is climate-friendly (CO_2-neutral).

Polyvinyl Chloride, PVC

Colourless vinyl chloride polymer. The rigid plastic is usually mixed with free additives such as softeners, fillers and lubricants, as well as stabilizers.

In general, the plastic has good resistance to chemicals and heat.

Environmental impact
Not classified as a hazardous to health and believed to be physiological inert.

Pello Bio

Think of the environment and use environmentally friendly book foil

¥€$!
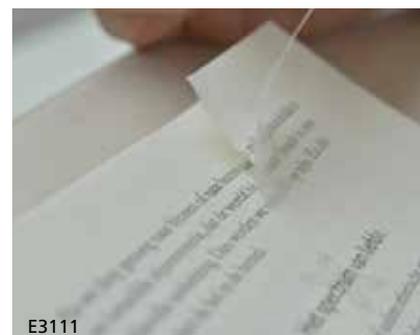

BOOK FILM IS A GREAT WAY TO SAVE MONEY

It is the easiest solution for preserving and extending the life of popular books.
You not only prevent wear to books and save money, but you also make it possible to use the library's funding to buy new titles instead of replacing old ones.

We have practically everything you need to protect and preserve books.
Book film that can be used by pre-school teachers to repair picture books, and by larger organisations to deliver fully-prepared books to the library. Keep in mind that even

fully-prepared books may need some care, for example to reinforce and repair folds in the cover, repair tears, or reattach pages that have been ripped out (just to name a few). Help is close at hand. We can give you advice that will help you save money!
